

**Bristol Testicular Cancer Service**  
BRISTOL HAEMATOLOGY AND ONCOLOGY CENTRE  
**MDT Referral Guidance**

These guidelines have been written to help the process of referral to the Network Testicular Cancer Service MDT. If you have any questions regarding these guidelines or the process please contact one of the team.

- On confirmation of a tumour by testicular USS then:  
Surgery to be arranged at local hospital.
- Tumour Markers to be taken. (AFP, LDH & HCG).
- Staging CT Scan (Chest, abdomen & pelvis) to be arranged.  
**(Within 2 weeks of surgery).**
- The CT Scan can be performed Pre Orchiectomy but should not delay treatment.

**Referral to Oncologist with 24 hours of surgery**

**Markers – AFP, LDH & HCG** should be taken on the day of Surgery. (If not previously taken). **Please arrange for patient to have weekly post operative tumour markers.**
