Employer information

Your employer will be University Hospitals Bristol NHS Foundation Trust.

It is important to note that this description is a typical example of your placement and is subject to change.

Louise Waters, UH Bristol PGME Manager & Dr Rebecca Aspinall, Foundation Programme Director (F2), 1st July 2011

Severn Foundation School Placement Description

Placement	Academic F2 Liaison Psychiatry (General Hospital Psychiatry)
The department	Liaison Psychiatry Clinic 7 Bristol Royal Infirmary 9-5 With on-call duties for the Southmead hospital inpatient psychiatric wards (Mason Unit and Weston Ward)
The type of work to expect and learning opportunities	The general day to day work involved involves assessment of referrals from the general medical and surgical wards, and assessments of patients following episodes of self harm, as well as those presenting to A+E. The team also has several out patient clinics, and there are opportunities for the post holder to both attend consultant lead outpatient clinic, whilst having outpatients of their own. There are also weekly teaching sessions, ward rounds, and access to extensive library facilities both within the hospital and the nearby University Library site.

as of clinical work are:

A&E Assessments

Assessment of patients presenting to the emergency department with psychiatric problems, most commonly following overdose or other episodes of self harm, happen on a daily basis. This involves assessment of risk, formulation of individual management plans, and liaison with appropriate community services.

General Medical and Surgical Referrals

Assessments are extremely varied and cover the full range of psychiatric problems from organic psychosis, to denial of illness.

Outpatient Assessments

Whilst others in the team have general outpatient commitments, including psychological therapies and self harm clinics the post holders' main role will be in assessment of Hepatology patients with potential comorbid psychiatric diagnoses, for optimization of management. The post holder will also be involved in discussion of other cases the team have found challenging through team discussions, supervision from consultants and weekly meetings.

The emphasis is on acute management, links with community teams, primary care, non- statutory services and Social Services for aftercare.

The nature of the work means that co-ordination and multi-disciplinary resources are invaluable.

Where the placement is based

Clinic 7, Bristol Royal Infirmary, UH Bristol NHS Foundation Trust

Educational Supervisor for the placement

Your Educational Supervisor will be without you for the entire F2 year. It is your responsibility to ensure that you have a beginning, midway and end of placement meeting with your allocated Educational Supervisor to set learning objectives and monitor and assess your progress.

Clinical Supervisor(s) for the placement

Your clinical supervisor for Liaison Psychiatry is Dr John Potokar consultant in psychological medicine.

Main duties of the placement

Your duties will include:

To assess and manage those current hospital inpatients and those presenting to A+ E who are referred to the Liaison Psychiatry team at the BRI.

To attend the weekly ward round

On-call 1 in 7 (Two weekends every four months) on the general psychiatry rota based at Southmead Hospital.

To participate in the audit activities of the department.

To prepare appropriate discharge summaries.

Your primary contacts (daytime) will be the clinic 7 Liaison Psychiatry medical and nursing team. Out of Hours on the on cal rota there is a Senior Nurse, SpR and Consultant on call.

In addition to seeing patients on wards and outpatients (history-taking, investigation, diagnosis, and management), you will practice preventative medicine, promoting health education, and work closely with other health professionals. You will help the Trust meet targets, manage resources as effectively as possible, maintain confidentiality and impartiality, use basic IT skills and use the Trust's clinical IT system.

Typical working pattern in this

9-5 Mon-Fri, With one day for academic study
 On call duties 1 in 7 5pm-9am + 2 Weekends 9am Sat-9am

placement Mon

Louise Waters, UH Bristol PGME Manager & Dr Rebecca Aspinall, Foundation Programme Director (F2), 1st July 2011

Severn Foundation School Placement Description

Placement	GP practice
The department	Primary Care
The type of work to expect and learning opportunities	<p>The GP is the first point of contact for most medical services. Most work is carried out during consultations in the surgery and some during home visits.</p> <p>GPs and their GP F2s provide a complete spectrum of care within the local community. You will need to deal with problems that often combine physical, psychological and social components.</p> <p>You will work in teams with other professions, helping patients to take responsibility for their own health.</p> <p>In your GP attachment, you will build on your knowledge of medical conditions, your ability to assess a problem, and your skills in deciding on the appropriate course of action. You will learn how and when to intervene, through treatment, prevention and education, to promote the health of your patients and families.</p> <p>The wide mix of General Practice is one of the major attractions. There can be huge variation in the needs of individual patients during a single surgery.</p>
Where the placement is based	GP training practices in the Severn area.
Clinical Supervisor(s) for the placement	Each GP F2 will be in an approved teaching practice, where your supervisor will be an accredited GP Trainer or GP Clinical Supervisor.
Main duties of the placement	<p>Your duties will include:</p> <ul style="list-style-type: none">- seeing patients in surgeries- responding to health problems presented by patients, including history-taking, investigation, diagnosis, and management- practicing preventative medicine- promoting health education- working closely with other health professionals- helping with repeat prescriptions and other administrative aspects of day-to-day patient care- helping the practice meet targets- managing resources as effectively as possible- maintaining confidentiality and impartiality- using basic IT skills and using the practice's clinical IT system- attending the practice's clinical meetings- you may also be asked to make domiciliary visits, if your

GP Supervisor feels this is appropriate

Typical working pattern in this placement

Morning surgery: followed by discussion patients seen with Supervisor.
Lunchtime: administrative work.
Early afternoon: clinical meetings, domiciliary visits.
Afternoon/early evening: surgery.

There will be a weekly tutorial lasting at least an hour.

This pattern varies from practice to practice. Practices may ask you to work the same pattern that most GPs do, with longer working days but time off in lieu.

On call requirements: While it may be in your contract to do on-call hospital work during your GP attachment, there will be no GP on-call requirements.

Employer information

Your employer will be your acute Trust, not the GP practice.

It is important to note that this description is a typical example of your placement and is subject to change.

Michael Harris, Severn School of Primary Care, 9th May 2011
