

Accommodation

Where possible we help newcomers to the Trust until they find their feet in Bristol. This is for the short term only as we now have very limited single accommodation and it is generally offered to students on short courses or visitors to the Trust who are unable to commit to a standard 6 month tenancy agreement.

Our accommodation is mainly located on Alfred Hill, five minutes from the main Bristol Royal Infirmary. The charge for the rooms, inclusive of all bills, is £16 per night for the first 10 consecutive nights stayed, with any further nights of the same visit being charged at £11 per night.

Anyone who has a six month contract or more with the Trust is strongly recommended to seek accommodation in the private sector

as they can get tenancy agreements for a minimum of six months.

Anyone wishing to rent any of our accommodation should email or call the office (sandra.perrett@uhbristol.nhs.uk - 0117 342 0535) to check availability. Your email address will be required so that all the necessary forms can be completed and emailed back. You will then be added to our list of people waiting for rooms, and will be contacted as and when a room becomes available.

Alternatively we have one, two and three bed flats which can be rented under an Assured Shorthold Tenancy agreement – there is generally a waiting list for this type of accommodation so please apply early if this is what you require.

About us and our location

University Hospitals Bristol NHS Foundation Trust is a dynamic and thriving group of hospitals in the heart of Bristol. We're one of the country's largest acute NHS Trusts and our academic links make us the largest centre for medical training in the South West, attracting the highest calibre of clinical staff from across the UK. The Trust's vision is to 'provide patient care, education and research of the highest quality' and our values are 'respecting everyone, embracing change, recognising success and working together'.

We are based at a number of locations in the centre of Bristol. Most of our sites are close to great public transport and road links; we run courtesy buses between our sites and offer help with bus passes and rail season tickets.

Bristol is a vibrant city and whether it's culture, shopping, eating out, sport or any other of life's essentials, you'll find them here. It's little wonder that, with great architecture and stunning views, a host of cultural attractions and a great range of places to eat and drink, the city welcomes over nine million visitors every year. And if you're into outdoor activities, you can visit some of the southwest's most stunning landscapes, like the Cotswolds, Cheddar Gorge or the Somerset, Devon and South Wales countryside and coastline.

Why UH Bristol?

We've got more to offer than just the foundation programme.

Wide-ranging services

- A new £61m Bristol Heart Institute
- A dedicated children's hospital
- A tertiary centre for Oncology
- Specialist hospitals for Ophthalmology and Dentistry

Award-winning education

- The largest centre for medical training in the South West
- A major medical research centre
- Innovative simulation facilities

Dynamic city

- A hub for science and media
- Vibrant culture and nightlife
- Historic harbourside
- Beautiful architecture

For more information about the programme visit www.uhbristol.nhs.uk and click on 'Work for us' or call Mara Balasco on (0117) 3420053.

Respecting everyone
Embracing change
Recognising success
Working together
Our hospitals.

Hello!

I'm Shivani, one of the F1 doctors at the Bristol Royal Infirmary.

I would definitely recommend UH Bristol as a place to work. The staff here have all been very friendly and welcoming, and it's been a really easy transition from medical student to doctor. There are a lot of social events organised, particularly in the Induction week, which really helped me to get to know the other F1s, and feel part of a group when starting work on day one!

Starting work as a doctor was obviously very scary at first, but there is a very good support network at UH Bristol – there is always someone to talk to if you're feeling stuck! We were introduced to

the foundation programme leads, our supervisors, those involved in pastoral care right at the beginning so we knew who we could approach.

The BRI can be bit of a maze at times, but you quickly learn the short cuts, and its keeps me fit running around the hospital! I enjoy the fact that it's essentially in the centre of town, so it's easy to go for post-work drinks, or do a bit of late-night shopping after work.

Bristol is a beautiful city, with lots going on. I'd never been here before applying, and I absolutely love it!

Good luck!

Shivani, F1,
BRI Mess
President.
