Years 2, 4 & GEMS Friday 17 May
Years 1, 3 & 5 Friday 07 June (Year 1, Revision and PHCE)

Clinical experience

We very much encourage you to watch homeopathy in action. Whether this is sitting in with Geoff Johnson the vet tutor in his clinic, or attending one of the video clinics with Dr Elizabeth Thompson, or sitting in with the clinical team, we provide the option for all our students to see live cases. As part of the course assessment we will expect you to sit in at least one clinic per year and chose a case history to write about to build your knowledge and expertise. All professions are welcome in any of the clinical settings.

Geoff Johnson will be running extra teaching sessions based at the White Hart, Wiveliscombe, Taunton (opposite the veterinary surgery). There will be live and video cases. For more details and to book a place please contact the course administrator.

Master classes

Within the teaching team we now have some of the leading experts in Homeopathic practice, both nationally and internationally. All of the master classes take place in the uplifting surroundings of the Penny Brohn Centre. Master classes support CPD requirements by providing continuing education for all. The classes are open to anyone interested, regardless of level of expertise.

2012

Saturday 29 September
Saturday 24 November

2013

Saturday 26 January
Saturday 16 March
Saturday 18 May
Saturday 22 June

Clinical meetings

These are held in the seminar room at the Bristol Homeopathic Hospital. You are very welcome to come to the clinical meetings on the 3rd Monday of the months of September, October, November, January, February, March, May and June. Each meeting starts at 8.00pm and lasts about 90 minutes. The clinical team at the BHH and veterinary and dental colleagues will present clinical cases to inspire and challenge.

Local study groups in the Southwest

Throughout the South-West of England and South Wales there is a network of local study groups, each one facilitated by a local General Practitioner. These groups support participants of the Bristol Academic Department's modular courses and provide opportunities for continued teaching and study between the main modules of the courses. A group meets at the BHH on Tuesday evenings at 7.45 to 9.45pm 5 to 6 times a year, for anyone in the area looking for support, stimulus and learning between modules. Meetings are scheduled on an ad-hoc basis one or two dates in advance. It is organised by Andrew Morrice by e-mail only. To get on the list to receive notification of dates please email him on andrewagmorrice@googlemail.com.

Course entry requirement

The course is open to fully qualified healthcare professionals whose qualifications are registerable with the UK Statutory Governing Body relative to their profession. It is the responsibility of the student to ensure he/she meets the registration requirements. This is of particular importance if the qualification was gained in another country.

Bursaries

A limited number of bursaries are available from the William Kadleigh Memorial Fund for suitable applicants whose circumstances would otherwise prevent their attendance, particularly for the Introductory course. Details from the Course Administrator.

A number of Bursaries, administered by the Nelson Barcapel Trust, are available from Year 2 of training onwards.

Full details are available from the Faculty website (www.facultyofhomeopathy.org).

For more information on courses including costs and how to apply, please contact

Renata Sopiartz, Course Administrator, on 0117 946 6087 or at renata.sopiartz@uhbristol.nhs.uk
