

## IAM Scoring Guidelines

The levels provide an indicator of the young person's and/or a professional's identification of need, risk or concern for each domain.

YOUNG PERSON	PROFESSIONAL
<b>LEVEL 0</b> Domain left blank	<b>LEVEL 0</b> Not known: Action point required to speak with young person about any need, risk or concerns
<b>LEVEL 1 - UNIVERSAL</b> Young person has not indicated any additional request for support over and above the routine service offered by site specific MDT plus access to TYA universal offer	<b>LEVEL 1 - UNIVERSAL</b> Needs identified can be met through routine cancer site-specific MDT and TYA MDaT universal offer. e.g.: <ul style="list-style-type: none"> <li>CLIC Sargent introduction and grant</li> <li>Support via IAM, access to Help! and self-management information / resources , signposting and navigation</li> <li>Invitation to social events and peer support</li> <li>Access to wellbeing 1-1s and groups</li> </ul>
<b>LEVEL 2 – TARGETTED</b> Young person has indicated this is an area they would like additional information and / or individual support with because they have identified their own additional needs	<b>LEVEL 2 – TARGETTED</b> Professional(s) in team around young person have identified an area they have moderate concerns about and would like to actively offer targeted additional assessments / interventions using the available bio-psycho-social support resources within TYA MDaT and cancer site-specific MDT e.g.: <ul style="list-style-type: none"> <li>Level 2 psychological assessment and support / emotional support*</li> <li>Supported engagement in wellbeing groups or 1-1 for specific lifestyle change</li> <li>Support with educational / vocational needs</li> </ul>
<b>LEVEL 3 – SPECIALIST</b> Young person has indicated they have a complex need / are very concerned about something in this area and agree to accessing specialist multi agency support	<b>LEVEL 3 – SPECIALIST</b> Professional(s) in team around young person have identified a complex need / significant risk factor which indicates the need for specialist assessment and intervention available within the TYA MDaT and cancer site-specific MDT or requiring an additional multi agency referral e.g.: <ul style="list-style-type: none"> <li>Level 3 -4 mental health assessments and interventions*</li> <li>Adult/child safeguarding assessment and plan</li> <li>Palliative care team / pathway</li> <li>High intensity wellbeing support provided by TYA/site specific MDTs/team around the young person</li> <li>Referral to wellbeing or supportive care services outside the cancer site-specific MDT / TYA MDaT</li> </ul>

*\* As defined by NICE IOG – Supportive care*
