## About us and our location

University Hospitals Bristol NHS Foundation Trust is a dynamic and thriving group of hospitals in the heart of Bristol. We're one of the country's largest acute NHS Trusts and our academic links make us the largest centre for medical training in the South West, attracting the highest calibre of clinical staff from across the UK.

The Trust's vision is to 'provide patient care, education and research of the highest quality' and our values are 'respecting everyone, embracing change, recognising success and working together'.

We are based at a number of locations in the centre of Bristol. Most of our sites are close to great public transport and road links; we run courtesy buses between our sites and offer help with bus passes and rail season tickets.

Bristol is a vibrant city and whether it's culture, shopping, eating out, sport or any other of life's essentials, you'll find them here. It's little wonder that, with great architecture and stunning views, a host of cultural attractions and a great range of places to eat and drink, the city welcomes over nine million visitors every year. And if you're into outdoor activities, you can visit some of the South West's most stunning landscapes, like the Cotswolds, Cheddar Gorge or the Somerset, Devon and South Wales countryside and coastline.

### Accommodation

We are delighted to help newcomers to the Trust whilst they find their feet in Bristol. This is for the short term only as we now have very limited single accommodation and it is generally offered to students on short courses or visitors to the Trust, who are all unable to commit to a standard 6 month tenancy agreement.

Our accommodation is mainly located on Alfred Hill, 5 minutes from the main Bristol Royal Infirmary. The charge for the rooms, inclusive of all bills, is £22.38 per night for the first 10 consecutive nights stayed, with any further nights of the same visit being charged at £16.20 per night. The rental charges quoted will be subject to a small increase on 1st August 2017

Anyone who has a six months contract or more with the Trust is strongly recommended to seek accommodation in the private sector as they can get tenancy agreements for a minimum of 6 months.

If you wish to rent one of our rooms you should email or call the office: sandra.perrett@uhbristol. nhs.uk - 0117 342 0535 to check availability in the first instance. Your email address will be required so that all the necessary forms can be completed and emailed back. Please note that we do not run a waiting list for single accommodation due to it being a short term arrangement only.

We no longer have any family accommodation to rent but we can provide a list of links to lettings agents to assist in your search for something suitable to live.

## Why UH Bristol?

# We've got more to offer than just the foundation programme

#### Wide-ranging services

- · Bristol Heart Institute
- · A dedicated children's hospital
- · A tertiary centre for oncology
- Specialist hospitals for ophthalmology and dentistry
- · South Bristol Community Hospital
- St Michael's specialist hospital for maternity, gynae-oncology, children and adult audiology, ear nose and throat outpatients and genetics

#### Award-winning education

- · A major medical research centre
- · Innovative simulation facilities

#### Dynamic city

- · A hub for science and media
- · Vibrant culture and nightlife
- · Historic harbourside
- · Beautiful architecture

## Hello!

I grew up in Bristol and decided to come here for my foundation training because I like the city. When I came to UH Bristol I was worried that I wouldn't have time to make friends or a new life.

Luckily F1s at UH Bristol were greeted with a really amazing induction week with lots of social activities, this helped me to settle in and meet everyone.

The main location for UH Bristol is in the Centre of Bristol and also helps a lot with meeting people.

UH Bristol is also a great place to work. It has a nice atmosphere and I have had the privilege of working with some really excellent senior clinicians.

My first job in AMU was busy but I felt really well supported. I'm still enjoying learning and growing as a practitioner and think that UH Bristol is a great place to do this.

Daniel McNamara
