

South West Paediatric Study Day:

Demystifying Spasticity Management in Children

Thursday 18th January 2018

This one day event is intended to expand and consolidate knowledge on spasticity in children. The focus of the day will be on assessment of these children with emphasis on currently available medical and surgical management options.

This educational activity will be of benefit to community and hospital paediatricians and trainees, paediatric neurology and neuro-disability trainees, general practitioners, physiotherapists and occupational therapists.

Planned agenda to include the following:

- **Medical management of spasticity– including feedback on the Sativex study**
(Dr Mary Gainsborough)
- **BTX: Therapy led vs GA Consultant Led**
(Jenny Anstead & Caroline Tope– Specialist Paediatric Physiotherapists)
- **Multilevel surgery and rehabilitation**
(Mr Guy Atherton– Consultant Orthopaedic Surgeon, Jenny Anstead– Specialist Paediatric Physiotherapist)
- **Selective Dorsal Rhizotomy (SDR) surgery and rehabilitation**
(Mr Richard Edwards-Consultant Neurosurgeon, and Jenny Smith– Specialist Paediatric Physiotherapist)
- **Intrathecal Baclofen (ITB) surgery and Complex Movement Disorders (CMD)**
(Mr Sam Amin- Research Assistant Paediatric Neurology & Alison Burchell—Specialist Paediatric Physiotherapist)
- Workshops in the following:
 - 3D gait analysis**
(Mary & Sue– Senior Lecturers at the University of West England)
 - Functional Electrical Stimulation**
(Dr Duncan Wood- Consultant Clinical Scientist)
 - Orthotics for the CP child**
(Kevin Mann- Specialist Paediatric Orthotist)
